

ENDOCRINOLOGY

Inventor: xxxxx
Year: ~????

The (neuro-) endocrine system is highly complex. So one can influence behavior and health with homeopathic doses of chemical substances, but also with behavior or radiation. For me it is to complex to understand and im not sure if a doctor in endocrinology completely understands what would happen when you change just a small element in the complete system. If there is such a AI that helps the doctors to make patients healthy again it would maybe also subect to attacks. So hopefully some doctors are hackers to. I dont know a lot about medicine, but when i asked @unibas if they had a look at the insulin pumps they recommend to their doctors and students they did not answer. That was a few years ago when CCC talked about such things.

Family Tree Walker Algorithm Malware Projection / Intimidation

Inventor: xxxxx
Year: ~????

Mostly Top-Down, seldom Bottom-Up. They seem to abuse Age Based Access to intimidate younger siblings or their children. Often one can read in news about pedophile people that We should identify who shows this behavior and people that show this behavior (we guess that are mostly the 1960s and older) should be therapied with an intensive care bear. They also often use children to transmit these intimidations, the child that transmitted that is then abused as scapegoat

RETINA CCD

Inventor: xxxxx
Year: ~????

Maybe "in the far future" we could be hypnotized by a QR-CODE since the Neuralink would dissociate one by a specific QR-code. Calling one insane or schizophrenic would maybe help to hide what they have done to him. On the back of the ccd Sensor you could even have a small LCD for triggering things. (Stimulus-Response-Habits). So if unsure about that, **CLOSE EYES WHEN TYPING PASSWORDS**. Even if a medic does such things in hospital and sterile environment, you could loose permanently eyesight. So maybe not the best idea. Workaround for hacked RetinaCCD would be to jam the frequencies used by the RetinaCCD. Another thing would be to find **eye entral Server (CIA/NSA?)**, then one could prove that this system is **bidirectional**, that they stalked Marc Jr since he was a 13 years boy old in Aarau BEZ (Écriture automatique). The cams that were installed by Alineag AG would therefor be the scapegoats that distracts from this card, and that eg. INSERT: 1960s parents stalked their underage kids even in their beds. More relevantn they use Photogrammetry to create m89.
