

Crypto Beginners Toolkit

dc10 Year: ~??

example create a ROT13 encryption, that of course can be broken in seconds, but to begin with crypto a good excercise, then continue maybe with

you begin with crypto eg your local military would ike to own you and to prevent that you dont join the crypto Work in pairs of at least 2 people, If they want to put you in mental institution to erase your brain you have better chances

i dont have a lot of time *INSERT: since they target me permantly, e. psychological warfare but if you have time it's quit easty we write something to encrypt and decrypt rot13, alphabet has 26 letters, so if you double-red13 you have again
